

# WELCOME TO TREBOROUGH HILL CROSS COUNTRY COURSE

We hope you enjoy the fun ride with optional jumps. Two routes are available today, the full ten miles and a shorter version of approximately eight miles in length.

The course in Exmoor's beautiful National Park also encompasses part of The Coleridge Way. We hope you will enjoy passing through fields, roads and tracks in this breath-taking environment. The course built with local sustainable materials, partially funded by The Sustainable Development Fund has been designed with safety and fun as a foremost priority.

Treborough Hill Cross Country Course is now fully open and available for hire for separate schooling and hire for events by Riding Clubs, Pony Clubs Point to Point organizers etc. The course has proved itself to be an enormous success with both novice and advanced horses and riders. Concessions for private schooling are available to riding club and pony club members. Our season ticket facility offers great value for those wishing to develop the potential of a horse or rider, or for those just simply wanting lots of great days out! We have a large flat area suitable for dressage arenas and show jumping, and we now have a wash down area for horses.

We will be hosting more fun rides in the future which will be advertised on our website. We would appreciate your feed back from today. We shall be making a donation from our profits to The Devon and Somerset Air ambulance.

Have Fun
